

ALL-HAZARDS

Evacuation

Checklist

Cochise County has adopted the Ready (Prepare Now), Set (Be Alert), Go (Evacuate) program. In an emergency evacuation, time may be limited to prepare an Evacuation Kit that will help to make you time away from home more comfortable. You may have medical needs (mobility concerns, medication and treatment needs, behavior disorders) that may not require hospitalization but do require special assistance or needs. The following checklist is designed to assist in preparing an Evacuation Kit, basic items needed for 72 hours, in advance of an evacuation order being given.

Pets (excluding service animals), firearms and weapons, alcoholic beverages and illegal drugs are not permitted in evacuation shelters!

While only service animals are allowed at evacuation shelters, please ensure your pet is evacuated with you or a plan is in place to ensure it is safe with a friend or family member.
